

## CONTENTS

*Research Communications*

Alterations of the glycan moiety of human $\alpha 1$ -acid glycoprotein in late-term pregnancy D. Biou, C. Bauvy, H. N'Guyen, P. Codogno, G. Durand and M. Aubery (France)	1
Strenuous physical activity, aspirin and heat stress increase urinary dolichols: evidence for lysosomal origin of urinary dolichols R. Roine, T. Heinonen, K. Salmela, E. Heikkonen, A. Suokas, O.J. Luurila, P. Koskinen, J. Palo and M. Salaspuro (Finland)	13
Effectiveness of palladium matrix modification for the determination of thallium by graphite furnace atomic absorption spectrometry Q. Yang and J. Smeyers-Verbeke (Belgium)	23
In vitro glycation of human apolipoprotein A <sub>1</sub> reduces its efficiency in lecithin:cholesterol acyltransferase activation A. Gugliucci and A.J.C. Stahl (France)	37
Determination of protein-bound urinary gamma-carboxyglutamic acid in calcium nephrolithiasis C. Colette, A. Benmbarek, H. Boniface, C. Astre, N. Pares-Herbute, L. Monnier and J. Guitter (France)	43
The adrenergic control of lipolysis: development of tolerance to beta-2 receptor stimulation with terbutaline M.J. Kendall, C.A. Hafner, B. Hughes and C. Florkowski (UK)	51
Predisposition to LDL oxidation during copper-catalyzed oxidative modification and its relation to $\alpha$ -tocopherol content in humans L. Cominacini, U. Garbin, B. Cenci, A. Davoli, C. Pasini, E. Ratti, G. Gaviraghi, V.L. Cascio and A.M. Pastorino (Italy)	57
Arylsulfatase A in serum from patients with cancer of various organs P. Laidler, D. Kowalski and J. Silberring (Poland, Sweden)	69
Gas chromatography method for the separation of amino acids enantiomers in plasma and urine. Application in a case of short bowel syndrome D. Ketting, S.K. Wadman, L.J.M. Spaepen, S.B. Van der Meer and M. Duran (The Netherlands)	79
Urine thiocyanate:creatinine ratio as a reliable indicator of cigarette smoking J. Pré and R. Vassy (France)	87
Cellular and humoral responses in coeliac disease. 1. Wheat protein fractions I.A. Penttila, J.M. Deverey, C.E. Gibson, J.T. LaBrooy and J.H. Skerritt (Australia)	95
Cellular and humoral responses in coeliac disease. 2. Protein extracts from different cereals J.H. Skerritt, J.M. Deverey, I.A. Penttila and J.T. LaBrooy (Australia)	109
Influence of serum proteins on fructosamine concentration in multiple myeloma M.P. Montagna, F. Laghi, G. Cremona, C. Zuppi, G. Barbaresi and M.L. Castellana (Italy)	123
3-Hydroxy-3-methylglutaric aciduria: a possible pitfall in diagnosis G.A. Mills, M.A.W. Hill, R. Buchanan, D.L. Corina and V. Walker (UK)	131
Optimisation of non-denaturing polyacrylamide gel electrophoretic analysis of glyoxalase I phenotypes in clinical blood samples A.C. McLellan and P.J. Thornalley (UK)	137
The nature of small bowel luminal fluid lactase S.H. Quak, G.A. Brown, I.W. Booth and A.S. McNeish (UK)	145
Composition of very low density lipoproteins and in vitro effect of lipoprotein lipase S. Saheki, I. Takahashi, M. Murase, N. Takeuchi and K. Uchida (Japan)	155

(continued on page 322)

(continued from cover)

Fatty acid composition of hepatic triglycerides in Reye's syndrome: implications for hepatic desaturase abnormalities E.S. Kang, S.B. Johnson and R.T. Holman (USA)	167
Purification and structural study of two albumin variants in an Irish population Ya. Sakamoto, E. Davis, J. Madison, S. Watkins, H. McLaughlin, D.T. Leahy and F.W. Putnam (USA, Ireland)	179
Capillary plasma lipid profiles R. Mace, B. May, C. McCray, T. Tracy, J. Spencer and C.J. Glueck (USA)	189
Comparison of nonparametric recursive partitioning to parametric discriminant analyses in laboratory differentiation of hypercalcemia D.A. Lacher (USA)	199
Ethinyl estradiol and norethindrone radioimmunoassay following Sephadex LH-20 column chromatography H.A. Zatur, S. Linkins, V. Chang, B. Smith, A.W. Kimball and R. Burkman (USA)	209
Assay of inulin in biological fluids by high-performance liquid chromatography with pulsed amperometric detection T.I. Ruo, Z. Wang, M.S. Dordal and A.J. Atkinson Jr. (USA)	217
Creatinine deiminase (EC 3.5.4.21) from bacterium BN11: purification, properties and applicability in a serum/urine creatinine assay E.M. Gottschalk, H. Hippel and F. Patzke (FRG)	223
Betaine:homocysteine methyltransferase - a new assay for the liver enzyme and its absence from human skin fibroblasts and peripheral blood lymphocytes J. Wang, N.P.B. Dudman, J. Lynch and D.E.L. Wilcken (Australia)	239
Platelet aggregation and fatty acid composition of platelets in type 1 diabetes mellitus B. Myrup, C. Bregengaard, L.R. Petersen and K. Winther (Denmark)	251
Carnitine therapy and metabolism in the disorders of propionyl-CoA metabolism studied using <sup>1</sup> H-NMR spectroscopy S.E.C. Davies, R.A. Iles, T.E. Stacey, C. de Sousa and R.A. Chalmers (UK)	263
Increased susceptibility to peroxide-induced haemolysis with normal vitamin E concentrations in cystic fibrosis D.R. James, M. Alfaham and M.C. Goodchild (UK)	279
Serum Lp(a) concentrations are unaffected by treatment with the HMG-CoA reductase inhibitor Pravastatin: results of a 2-year investigation H.-G. Fieseler, V.W. Armstrong, E. Wieland, J. Thiery, E. Schütz, A.K. Walli and D. Seidel (FRG)	291
Plasma bromine concentrations and lipid profiles F.M. Corrigan, E.R. Skinner, F. MacIntyre, G. Ijomah, J. Holliday, D.F. Horrobin and N.I. Ward (UK)	301
<i>Letter to the Editor</i>	
Isoelectric focusing of neutrophil alkaline phosphatase in trisomy 21 pregnancies	305
<i>CCA Young Investigator Award</i>	309
<i>Author index</i>	311
<i>Subject index</i>	315
